

ERKAPHON BLACK LINE

MAXIMUM FLEXIBILITY.

Ideal for daily routine examinations and perfect for blood pressure measurement ? the Erkaphon black line impresses with its versatility. Give your stethoscope a personal touch: The membrane printed with your company logo or a personal name engraving make your stethoscope unique.

WHY THE ACOUSTICS OF THE STETHOSCOPES ERKA ARE SO BRILLIANT?

Our unique ERKA convex membrane has been specially designed for transmitting high and low frequency tones. All ERKA ACOUSTIC, ERKA PULSE and ERKA CHILD stethoscopes have this membrane, guaranteeing you transmission of sound of absolute top class!

WHY IS THE ERKAPHON SPRING OUTSIDE?

The binaural-mounted spring enables optimal forwarding of the sounds through the single-channel tube.

YOU'D LIKE TO CONCENTRATE ON THE ESSENTIAL?

The ergonomically shaped soft ear tips will fit your ear canals perfectly and block out external noise.

WHAT MAKES AN ERKA STETHOSCOPE SO INDIVIDUAL?

Every single ERKA stethoscope is a unique masterpiece: elaborately polished and chrome plated by a master craftsman since 1889! Handmade in Germany with the experience of more than 125 years.

HOW CAN I PERSONALIZE MY STETHOSCOPE?

Each stethoscope can be personalized with an individual laser engraving or a customized membrane.

WHAT DISTINGUISHES THE ERKA STETHOSCOPES FROM THE BROAD MASS?

Be special! Choose from a wide range of different tube colors to render your everyday life a little more colorful.

HOW CAN ERKA PROTECT YOU AND YOUR PATIENTS AGAINST INFECTIONS BY USING A STETHOSCOPE?

All components used in an ERKA stethoscope can be cleaned and disinfected easily and thoroughly. We continuously test all common medical detergents and recommend these disinfectants unrestrictedly.

WHAT DOES YOUR PATIENT CAN EXPECT OF AN ERKA STETHOSCOPE?

Our membrane has been successfully tested and accordingly certified for biocompatibility. It also was classified as dermatologically safe.

HOW ERKA PROTECTS YOU BEYOND?

The chest-piece of an ERKA stethoscope is made from hand polished and pore free chromed brass. Compared to aluminum or stainless steel, this surface is more resistant to germs and bacteria.

WHY AN ERKA STETHOSCOPE IS SUITABLE FOR PERFECT AUSCULTATION?

Each ERKA stethoscope is equipped with a perfect ergonomically shaped chest-piece available in different sizes. This enables auscultation even in hard-to reach areas or for different constituted patient.

EVERY EAR IS DIFFERENT?

Yes! Therefore the ergonomically shaped binurals of every ERKA stethoscope are individually adaptable to your ear canal - so you can work perfectly.

SOFT OR SUPER SOFT?

Every ERKA stethoscope comes with an extra selection of ear tips to best meet your needs.

MEMBRANE

The pre-tensioned ERKA. convex membrane provides excellent resonance and sound transmission.

CHEST-PIECE

The stethoscope is ideally suited for routine examinations and blood pressure measurement. The specially shaped chest-piece allows auscultation even in hard to reach places. The aluminium chest-piece is simple and can be cleaned quickly.

BINURALS

The standard 15° inclined binurals can be individually adapted to the ear canal characteristics of the user. The ergonomically shaped and individually adjustable headset guarantees an optimal fit.

EAR-TIP

The soft ear tips fit ideally into the ear canal and thus minimise the influx of external noise.
