

FINESSE LIGHT CHILD

QUALITY AND COST IN HARMONY.

Achieve optimal auscultation with the Finesse Light Child paediatric stethoscope! The ultra-small, double-sided pediatric chest-piece made from chromed brass hand-polished to a high shine has an open bell side especially for low frequencies and a membrane side for the entire frequency spectrum. To maximise user comfort, the orientation of the ear loops can be customised to each user.

Tube Color	Size	Reference
black	-	521.00010.
