

CLASSIC RAPID

THE CLASSIC

Impressive - the ERKA. Classic rapid cuff continues to set unsurpassed standards when it comes to functionality. The cotton cover offers the following great features: durability - because it is double-stitched; hygiene - because it is robust and machine washable up to 90° through the use of wear-resistant materials. The removable inflation bladder itself is made of an extremely soft and flexible rubber mixture, which enables accurate readings through uniform pressure buildup. Using the cuff with the ERKA. Hygiene Protection Strip 000.04100 is recommended: an effective tool for maximum hygiene in everyday medical practice.
